

iCA eBOMS for NetSuite

An Automated Bill of Materials Solution

iCloudAuthority's eBOMS for NetSuite generates a bill of materials for all your assemblies inside NetSuite. This application delivers exploding views that provide 360° BOM visibility into average costs, current and last purchase price, preferred vendor pricing, last purchase order, and more for each component, all at your fingertips. It's easy to install, and it's quickly available to use.

HOW DOES IT WORK?

- Step 1** From within NetSuite, open the iCA eBOM module.
- Step 2** Select the assembly item to be reviewed and click Search.
- Step 3** Alternatively, select multiple assembly items to compare and contrast.
- Step 4** Once loaded, roll up or down the exploded bill of materials to suit your view.
- Step 5** Select the override field at the line level to change the cost value.

View BOM Assemblies in a Few Clicks

WHAT TO EXPECT?

- Automates sorting through multiple saved searches and merging downloaded files to provide a concise BOM view for download
- Provides an efficient way to view BOM costing and generate notifications if cost calculations are incorrect or material is costed in error

FEATURES

- Explodes all assemblies into member items with associated pricing and purchase info
- Compares assemblies for detailed analysis
- Requires no integration; the application runs inside NetSuite
- Provides complete visibility of costs: average costs, last purchase price, and preferred vendor pricing
- Displays the item cost used for BOM calculation and can override item cost where needed with other cost types
- Downloads into a CSV file for extraction

NATIVELY BUILT INSIDE NETSUITE

Item Name	Quantity	Unit Price	Vendor	Item Cost	Last Purchase Price	Preferred Vendor Pricing
ITEM 1	1	100	ABC	100	100	100
ITEM 2	1	100	ABC	100	100	100
ITEM 3	1	100	ABC	100	100	100
ITEM 4	1	100	ABC	100	100	100
ITEM 5	1	100	ABC	100	100	100
ITEM 6	1	100	ABC	100	100	100
ITEM 7	1	100	ABC	100	100	100
ITEM 8	1	100	ABC	100	100	100
ITEM 9	1	100	ABC	100	100	100
ITEM 10	1	100	ABC	100	100	100
